React JS | HTML | CSS

I've been learning JavaScript for over a year. In this time I've acquired knowledge and skills that now I'm looking forward to putting in commercial environment.

Skills

- > JavaScript ES6 + higher
- > React
- > HTML + CSS
- > fetch API
- > Git + GitHub
- > Responsive Web Design (RWD)

Languages

- > **Polish - native**
- > **English - C2**

Interests

- > Computer games
- > Alternative coffee brewing methods
- > My 2 cats

Work Experience

2020-2021

IBM

- > First line technical support and user management
- > Salesforce.com support
- > Real time troubleshooting

2022-present

Gutowski Translations

- > Project management
- > Operating industry specific software
- > Multilingual client cooperation

Education

2022

JavaScript Web Projects

33 hours of lectures
+120 hours of practical exercises

2022

Write JavaScript for the Web

10 hours of lectures

React with Bob Ziroll

12 hours of lectures
+140 coding challenges

2014-17

University of Wroclaw

Microbiology, BA

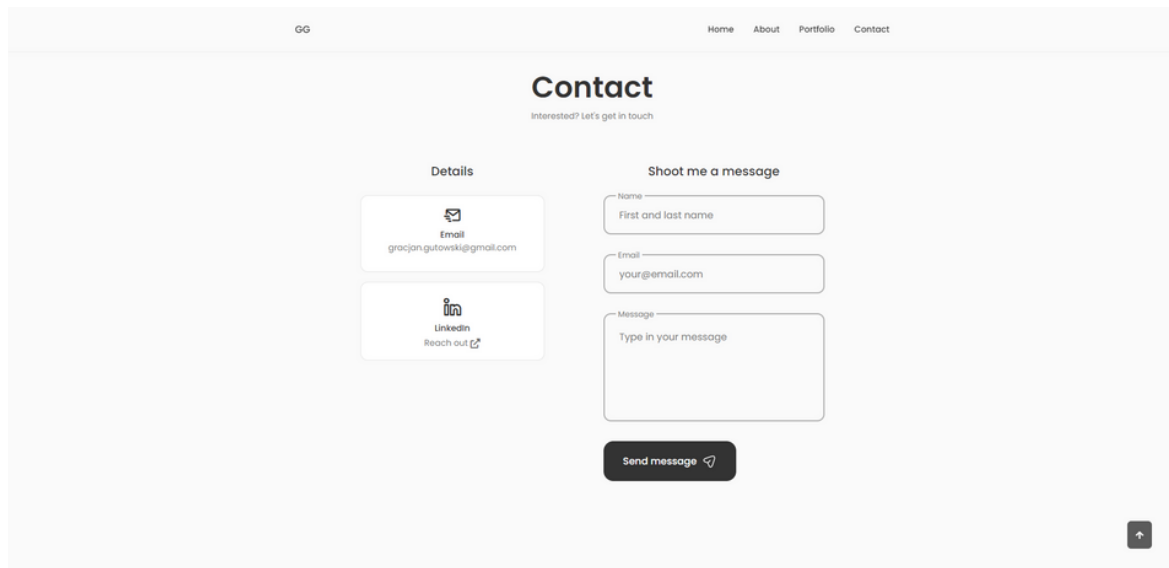

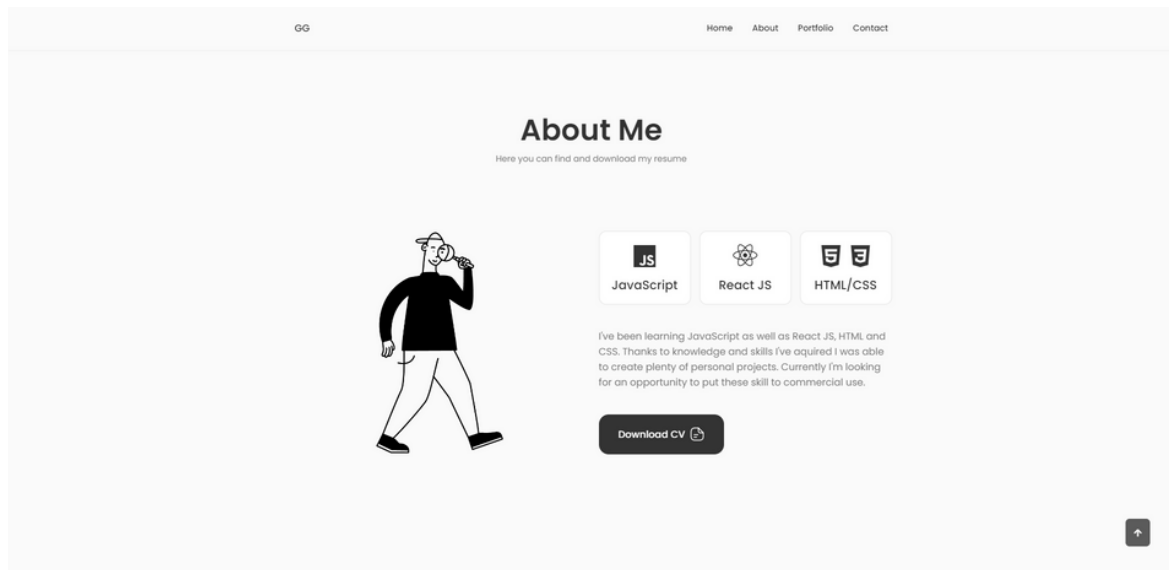

2021-present

University of Wroclaw

English Philology, MA

My portfolio page

> [Link to the page](#) <

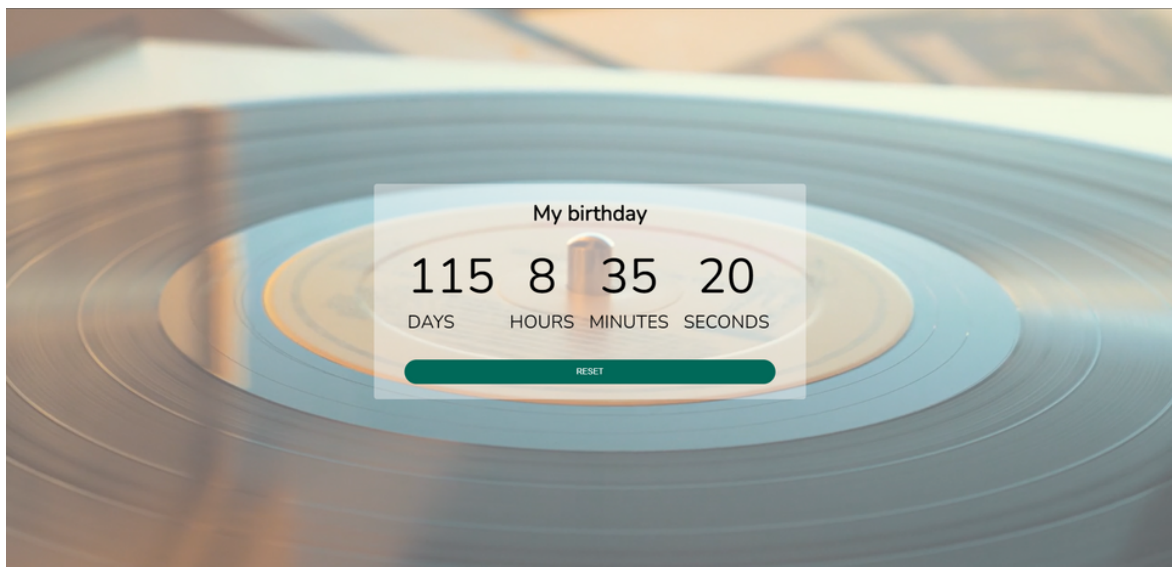

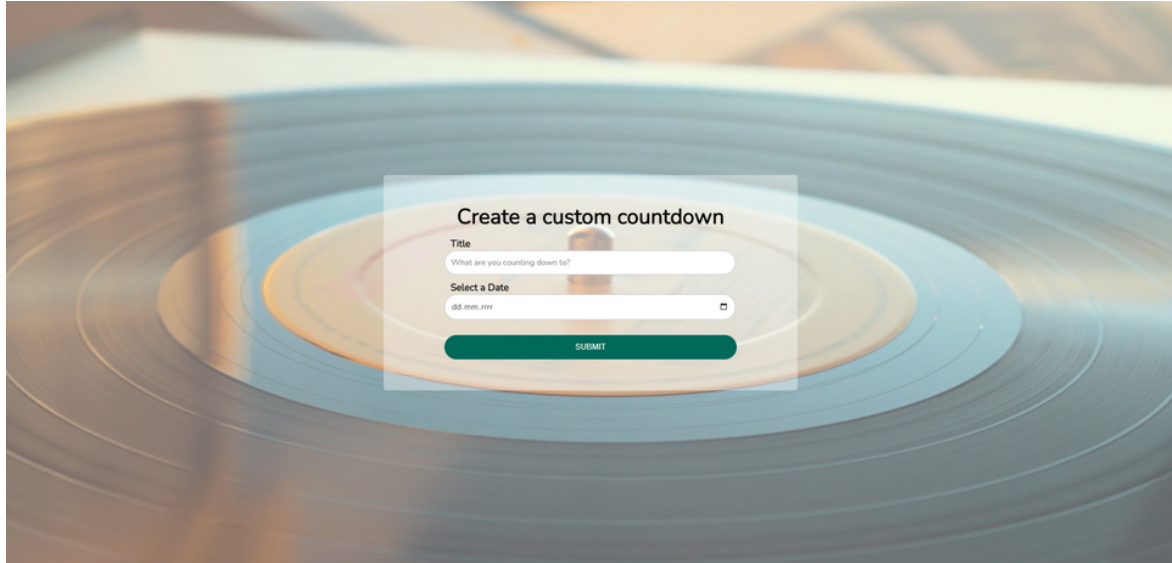

My own portfolio website. Includes links to LinkedIn and GitHub. Allows you to download my resume as well as contact me using the form in the Contact section.

> **Technology:** React, EmailJS, RWD, CSS3, HTML5

Custom Countdown

> [Link to the project](#) <

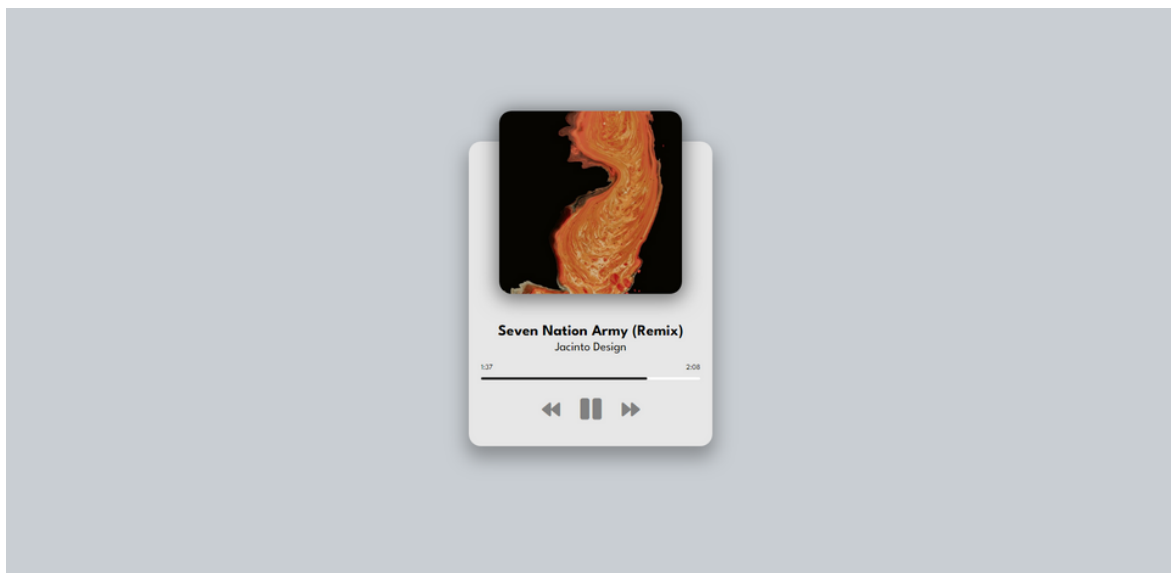

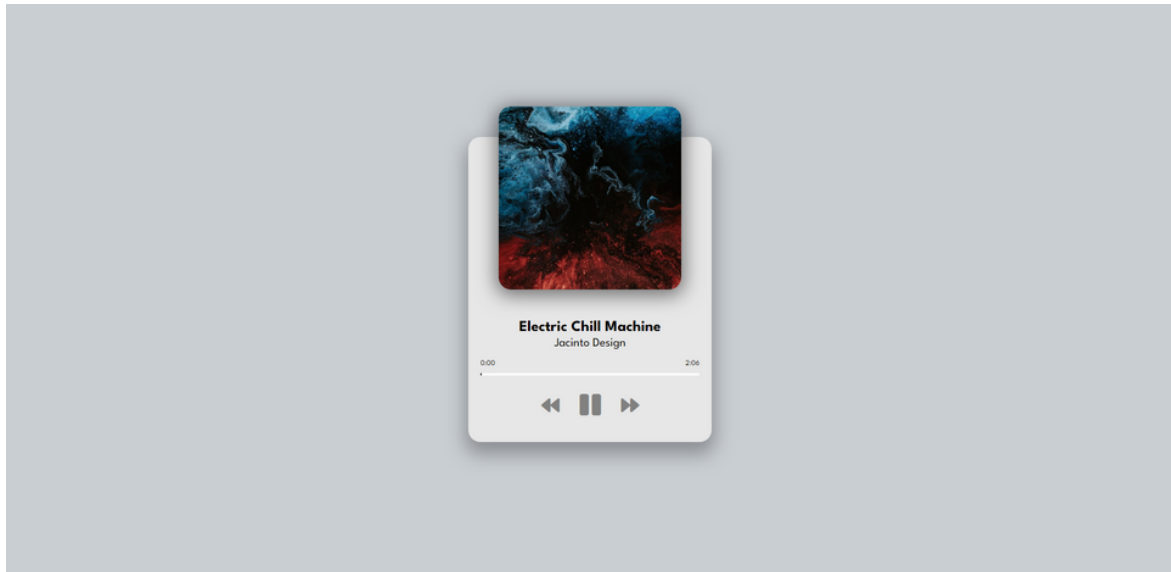

Website allows you to create a countdown timer to any date of your choosing. Keeps the countdown going even with the site closed.

› **Technology:** JavaScript, HTML5 + video as a background, CSS3, Date(), localStorage

Music Player

> [Link to the project](#) <

Music player with functional Play/Pause & Next/Prev buttons. Progress bar updates in real time and allows to skip portions of the music track.

› **Technology:** HTML5 audio API, eventListener, automatic DOM updates, JavaScript, CSS3

Infinite Scroll

> [Link to the project](#) <

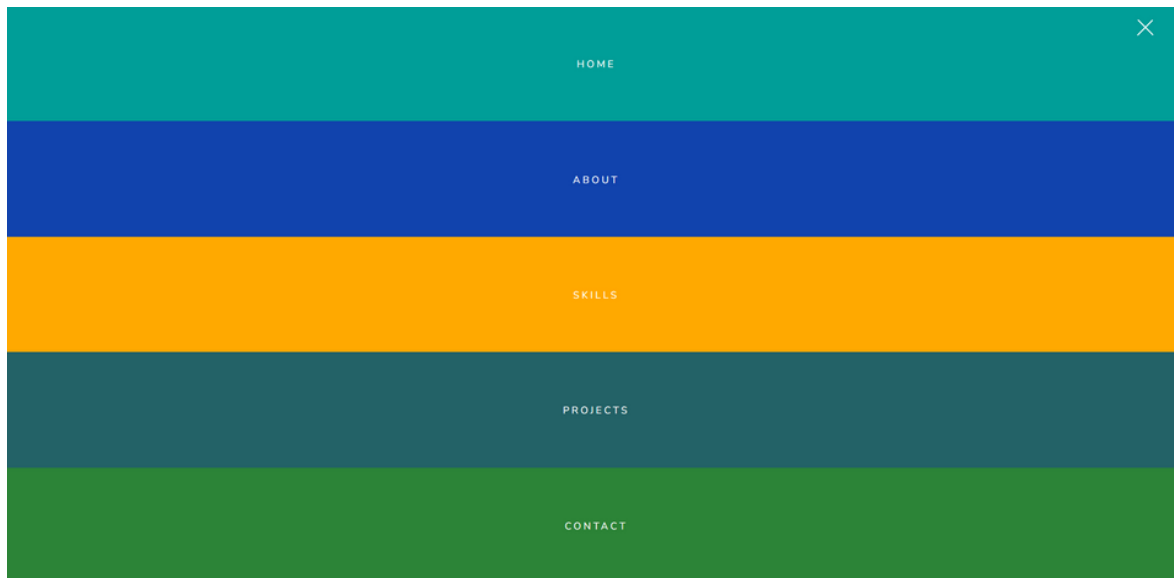

Website creates a library of pictures related to Synthwave. Pictures load indefinitely as user scrolls.

› **Technology:** Fetch, Async/Await, Unsplash API, DOM, Scroll Event Listener

Animated Navigation Bar

> [Link to the project](#) <

Website that could serve as a portfolio page.
Features a highly animated navigation menu built
with RWD principles in mind.

> **Technology:** CSS keyframe animations, mobile responsive, controlling
CSS with Javascript
